**Subject:** RE: Missing 3rd quarter water monitoring information

Pete,

It appears that I forgot to add those two NO FLOWs to my report. I checked those two sites on 9/11/03 between 0940 and 1055. I can add those ASAP. The Division's print out of what I submitted shows a July, August, and September report for UTG040012-001. All were NO FLOW. If you need anything else, please inform.

Thanks, JP

Subject: Missing 3rd quarter water monitoring information

JP.....

SL says there are four samples missing from your 3rd quarter water monitoring information. They are the following;

- 1) B-26, August sample missing.
- 2) B-25, August sample missing.

UTG040011-001 was also reported as having no samples for August or September, but this is pond 001A, and I know there were no outfalls from the pond during that time. Did you report the DMR's as no flow ? Please follow up on the missing info, and let me know whats going on will you ??
